<b>LOCKING DEVICES MUST BE USED SAFELY AND RESPONSIBLY</b>	

It is important to use the locking device on your Ruger® firearm!

Keep the muzzle pointed in a safe direction and your fingers outside the trigger guard at all times!

## To Install the Factory-Supplied Locking Device:

1. Place the safety in the “SAFE” position.
2. Remove the magazine by pressing the magazine latch (on the forward end of the magazine) rearward and pulling the magazine down and out of the rifle.
3. **Be sure the firearm and its magazine are completely unloaded and contain no cartridges or cartridge cases!**
4. Open the action completely by drawing the bolt fully to the rear.

5. Remove the bolt from the rifle. See the “Disassembly” section on page 19.
6. Apply the lock directly to your RUGER AMERICAN RIFLE® rifle as shown below in Figure 3.
7. To lock: With the key turned to the farthest clockwise position, insert the loose end of the cable into the padlock. Turn the key counterclockwise and remove the key.
